Businesses grow when they find partners who understand their challenges.

Partners who are present at the most important moments, helping identify opportunities, anticipate movements, and turn plans into results.

With this vision in mind, Bradesco Empresas e Negócios (Bradesco Companies and Business) accelerated its transformation, becoming even closer to its clients.

And from this evolution, a new relationship model was born.

Bradesco managers work alongside specialists to meet clients’ needs.

Because understanding each company requires proximity and commitment. It requires understanding the reality, challenges, and goals of every entrepreneur.

This is how we created the **Bradesco Empresas Offices**, a structured model designed to serve companies with annual revenues between **R$ 4.8 million and R$ 50 million**.

A network of more than 160 offices across Brazil, providing a highly exclusive service model, with a limited number of clients per portfolio.

Dedicated credit specialists combine market expertise, a consultative approach, and an ecosystem of tailored solutions to support every stage of the business journey.

The leadership of Bradesco in lending to small and medium-sized enterprises is built on simple principles: closely monitoring each client's development, investing in technology and delivering increasingly agile and efficient digital experiences.

It is this closeness that shapes our Offices, our solutions, and the way we serve.
