

About us

Nexa is a large-scale, low-cost, integrated polymetallic producer, with zinc as our main product. We have over 65 years of experience developing and operating mining and smelting assets in Latin America. Nexa currently owns and operates five polymetallic mines – four long-life underground (two in the Central Andes region of Peru and two in Brazil, in the state of Minas Gerais and Mato Grosso, and one open-pit in Peru. Nexa also owns and operates three smelters: two in Minas Gerais, Brazil (Três Marias and Juiz de Fora), and one in Lima, Peru (Cajamarquilla), which is the largest smelter in the Americas.

Our Focus and Priorities

Votorantim and Boliden Transaction
Advance toward Closing and prepare for the transition

Aripuanã
4th tailings filter operational; stabilization underway to support full capacity
LoM¹ = 16y (reserves)²; 25y+ (resources)³.

Cerro Pasco Integration Project
Well-known, **high potential polymetallic district**
Strengthens our integrated position.

Mineral Exploration and Growth
Cerro Pasco, Cerro Lindo & Vazante: continued success in **extending LoM**; continued focus on brownfield exploration to extend LoM

Strategic Catalysts

Financial and operational discipline
Prioritizing **sustainable cash flow generation supported by operational discipline**

Strengthening balance sheet
Gross debt reduction strategy to boost financial flexibility. **Balanced capital allocation**, including shareholder distributions

Active ESG strategy
Tracking progress on public commitments, advancing our journey toward more sustainable mining

Key Operational and Financial Indicators

Zinc Production (kt)

Metal Sales (kt)

By-products Sales | Smelting

EPS (US\$)

Adjusted EBITDA (US\$ MM)

(1) LoM = Life of Mine; (2) LoM based on current Mineral Reserves and Mineral Resources inventory as of Dec. 31, 2025, considering the updated LoM plan; (3) Considering 15 yrs of Mineral Reserves + 50% of the inferred Mineral Resources as of Dec. 31, 2025.

Debt profile (as of Sep 30, 2026). **Long-term avg. debt maturity: 6.8 years @6.70% avg. cost**

3Q26 Free Cash Flow (US\$ million)

(1) Adjustments to reconcile Adjusted EBITDA to cash provided by operations; (2) Breakdown available in the Financial Statements "Consolidated statement of cash flows", including the Tax settlement payment of approximately US\$16.7 million, which refers to a cash disbursement made during the quarter following the final resolutions issued by Peru's tax authority ("SUNAT") in August 2026. The payment was made to preserve Nexa's right to continue challenging the assessments before the competent judicial authorities, while benefiting from a reduction in penalties and interest. Excluding this payment, the Increase in cash and cash equivalents for the quarter would have been positive at US\$41 million. (3) CapEx recorded under investing activities in our condensed consolidated interim financial statements is presented on a cash basis, while the amount presented in the "Capital Expenditures (CapEx)" section of this earnings release is reported on an accrual basis; (4) We have changed our Free cash flow definition compared to previous quarters. The updated definition is defined as Net cash provided by operating activities minus CapEx. Refer to "Consolidated statement of cash flows" in the Financial Statements. (5) Dividends paid to non-controlling interests (Pollarix and Nexa Peru) and Dividends received in cash from associates (ENERCAN); and (6) Foreign exchange effects on cash and cash equivalents.
